

A FORD TERRITORY PROMOTION

Territory Ghia AWD shown with optional carry bars (RRP \$54,375 excluding dealer delivery and statutory charges)

# Driving Innovation

TAKE A TOUR OF THE REVOLUTIONARY FORD TERRITORY

When it came to creating the award-winning Ford Territory, the designers at Ford didn't throw out the rule book, they rewrote it.

In doing so, they set new standards in performance, handling, safety, comfort and flexibility in an Australian car. From its intelligent safety features like side curtain air bags (standard on Territory TS and Ghia; optional on TX) to the eucalypt tones of the interior trim, this car was inspired by Australia and designed for Australian conditions, from the boulevards to the beaten tracks.

The challenge was to create a vehicle with amazing flexibility; it had to have the comfort and handling of a sports sedan with the ability to go off the beaten track. That's why the Ford Territory has an amazing array of technical features which improve vehicle ride and handling, both on road and off. And nothing is spared when it comes to occupant safety with dual stage airbags, seat belt pretensioners, front crumple zones, a reinforced safety cell helping protect the passenger compartment, anti-lock brakes (ABS) and a collapsible steering column. It also has an incredibly spacious and versatile interior, with an optional third row seat that comfortably provides generous seating for 7 adults. There are also more than 30 storage areas, including a lockable underseat drawer and front seat side pockets that can store a handbag.

Enhancing this versatility, the Territory offers an extensive range of accessories, including a mini-fridge, waterproof seat covers and recreational equipment carriers, so that you can tailor your Territory perfectly for your own lifestyle.

Ford Territory. The possibilities are amazing.

Territory Ghia

- Handles like a car with precise intuitive cornering, thanks to its Acutrac and Control Blade Independent Rear Suspension systems.
- Dual stage driver and front passenger airbags provide optimum protection for you and your family.
- Arouses the senses of driver and passenger alike, with its powerful 6 cylinder heart, improved visibility and theatre seating.
- Adapts to your lifestyle, with a reconfigurable interior that allows optional seating for 7 adults, and almost endless storage options for everything from bikes to laptops.
- Experience Ford Territory from only \$38,990\*.

\*Rec. retail price of Territory TX RWD excluding dealer delivery and statutory charges.
